2. Draw 2 brown eggs in each bowl.

3. There are 2 + 2 + 2 eggs.

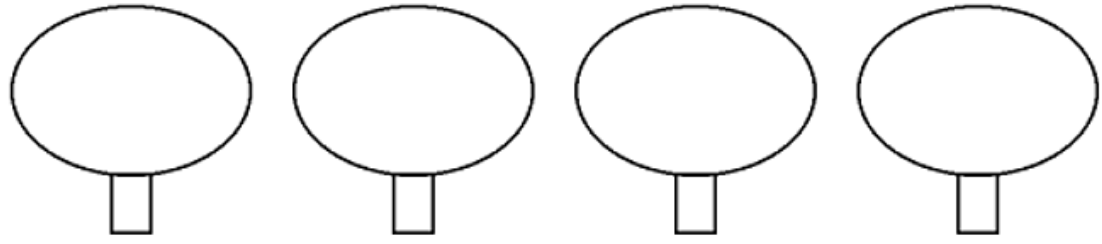

3. There are 3 groups of 2 eggs.

5. There are 3 x 2 eggs.

6. How many eggs are there all together? 6

7. 3 x 2 = 6

Example 

1. How many trees are there in the picture above? _____

2. Draw 2 apples on each tree.

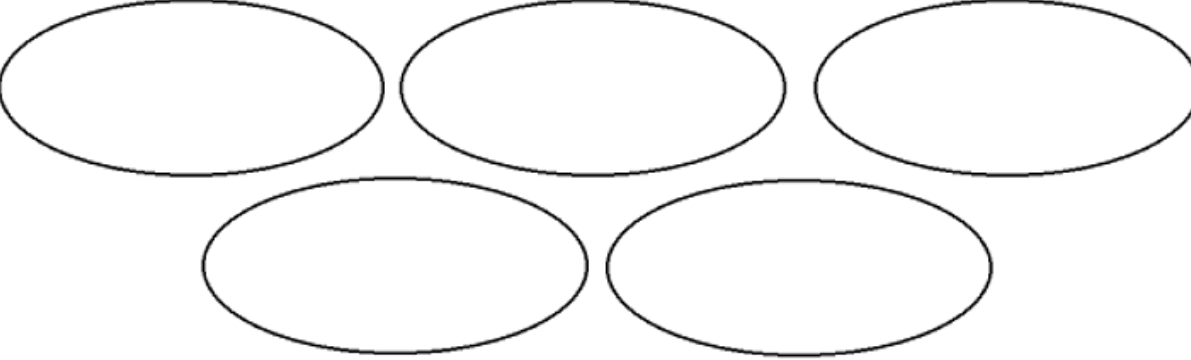

3. There are _____ + _____ + _____ + _____ apples.

3. There are 4 groups of _____ apples.

5. There are 4 x _____ apples.

6. How many apples are there all together? _____

7. 4 x _____ = _____

1. How many plates are there in the picture above? _____

2. Draw three yellow cookies on each plate.

3. There are _____ + _____ + _____ + _____ + _____ cookies.

3. There are 5 groups of _____ cookies.

5. There are 5 x _____ cookies.

6. How many cookies are there all together? _____

7. 5 x _____ = _____

Multiplication as Repeated Addition

1. Draw 6 legs on each insect body above.
2. How many insects are there in the picture? _____
3. There are _____ + _____ + _____ legs.
3. There are 3 groups of _____ legs.
5. There are $3 \times$ _____ legs.
6. How many legs are there all together? _____
7. $3 \times$ _____ = _____

1. Draw 8 legs on each spider body above.
2. How many spiders are there in the picture? _____
3. There are _____ + _____ legs.
3. There are 2 groups of _____ legs.
5. There are $2 \times$ _____ legs.
6. How many legs are there all together? _____
7. $2 \times$ _____ = _____
